Self-Made Assignment - MS Power Point

Adding Animations on a slide in Power Point

Make presentation using slide master option in power point.

Slide 1: Title Slide

- Title: Advancement in Technology
- Subtitle: How Tech is Changing Our World

Slide 2: What is Technology?

- Title: What is Technology?
- Content:
 - Technology means tools and machines that help us do things.
 - It can be something simple like a hammer or something big like a computer.
 - Technology helps us talk to people, travel places, learn new things, and finish tasks more easily.

Slide 3: Examples of Technology

- Title: Examples of Technology
- Content:
 - 1. Computers:
 - Computers are machines we use to work, study, and play games.
 - 2. Smartphones:
 - Smartphones are like small computers we can carry in our pockets. They help us call people and use the internet.
 - 3. Internet:
 - The internet is a big network that lets us find information and talk to others anywhere in the world.
 - 4. Robots:
 - Robots are machines that can do tasks for us, like cleaning or building things.

Slide 4: How Technology Helps Us

- Title: How Technology Helps Us
- Content:
 - 1. Makes Life Easier:
 - Technology helps us do hard jobs easily. For example, washing machines clean our clothes for us.
 - 2. Saves Time:
 - With technology, we can do things faster. For example, we can shop online instead of going to stores.
 - 3. Helps Us Learn:
 - Technology gives us easy access to information. We can learn new things with online videos and courses.
 - 4. Connects Us with Others:

Self-Made Assignment - MS Power Point

Adding Animations on a slide in Power Point

- Apps and social media help us talk to family and friends, even if they live far away.

Slide 5: Future of Technology

- Title: Future of Technology
- Content:
 - 1. Smart Homes:
 - Smart homes have devices that make life easier, like lights we can turn on with our phones.
 - 2. Artificial Intelligence (AI):
 - AI is a type of technology that can think and learn. It helps us with tasks like setting reminders or answering questions.
 - 3. Virtual Reality (VR):
 - VR lets us experience new places and activities through special glasses. It is fun for games and learning.
 - 4. Space Travel:
 - Technology might let us travel to space and visit other planets in the future.

Example of Slide Master Design

- Title Slide:
 - Background: Light blue
 - Title Font: Bold, 36 pt Arial
 - Subtitle Font: 24 pt Arial
- Content Slides:
 - Background: White
 - Title Font: Bold, 30 pt Arial
 - Content Font: 24 pt Arial
 - Footer: Small text (12 pt) with your name and date
