Self-Made Assignment - MS Excel

Conditional Formatting in MS Excel

Make MS Excel assignment using conditional formatting option in MS Excel.

Scenario: Sales Performance Analysis

A company wants to analyze its monthly sales data for a set of products. You will apply conditional formatting to identify products with high and low sales, as well as trends over time.

Product Name	Jan Sales (₹)	Feb Sales (₹)	Mar Sales (₹)	Apr Sales (₹)	May Sales (₹)
Product A	15,000	18,000	13,000	20,000	22,000
Product B	12,000	10,000	15,000	14,000	16,000
Product C	8,000	7,500	9,000	8,500	10,000
Product D	20,000	25,000	22,000	27,000	30,000
Product E	5,000	6,500	4,000	5,500	7,000

Apply Conditional Formatting:

1. Highlight the highest sales in each month using a green fill.
2. Mark any sales below ₹10,000 with a red fill.
3. Apply a color scale to show the range of sales amounts.
 - a. choose the **Green-Yellow-Red** color scale, where green represents higher values and red represents lower values.
