Self-Made Assignment -Introduction to C Plus Plus

Basic Syntax and Program Structure in C Plus Plus

Write a simple C++ program that:

1. Displays the message: "Hello, World!" on the screen.
2. Prompts the user for their name and age.
3. Displays a personalized greeting message with their name and age.

Sample Input:

Enter your name: Alice
Enter your age: 25

Sample Output:

Hello, World!
Enter your name: Alice
Enter your age: 25
Hello, Alice! You are 25 years old.
