Self-Made Assignment - HTML

Attributes in HTML

Current affairs

Bold and Important Text

The word **bold** is used for styling, while the word **important** is used to emphasize the meaning of the text.

Italic and Emphasized Text

The word italicized is used for stylistic purposes, while the word emphasized has a special emphasis for meaning.

Marked and Smaller Text

Use the marked tag to highlight important information. The word smaller will appear in a smaller font size.

Deleted and Inserted Text

The rise in smartphone exports contributes to the Indian economy. It creates job opportunities in **manufacturing and allied sectors**. Increased exports also improve the country's trade balance and foreign exchange reserves.

Chemical formulas often use subscript, for example, H₂O. Similarly, ² is used for superscript in mathematical expressions such as x².

Examples in Mathematical and Scientific Notations

When calculating the area of a circle, the formula is πr^2 where **r** is the radius of the circle.

In chemistry, water is **H₂O**, and carbon dioxide is CO₂.
