Self-Made Assignment -Introduction to C Plus Plus

Data Types and Variables in C Plus Plus

Write a C++ program that asks the user to input two numbers and then calculates and displays the sum. Your program should:

- Prompt the user for input.
- Store the input values in variables.
- Calculate the sum of the two numbers.
- Display the sum to the user.

Requirements:

- Use appropriate data types for storing the numbers (e.g., int or float).
- Include proper input and output statements using cin and cout.
