## The span element

**Water** conservation aims to sustainably manage the natural resource of fresh water, protect the hydrosphere, and meet current and **future** human demand. Water conservation makes it possible to avoid water scarcity. It covers all the policies, strategies and activities to reach these aims.

You can add span color blue and font-weight- Bold. And You can add span color green and font-weight -Regular

**We must start planting more trees and plants.** Rainwater harvesting must be made compulsory so we can benefit from the rain as well. **Further, we can also save water by turning off the tap when we brush our teeth or wash our utensils.** Use a washing machine when it is fully loaded.

You can add span color orange and font-weight- Regular. And you can add span color red.
