Self-Made Assignment - DHTML

Working with Text in CSS

This is heading 1

You can add heading 1 and add h1
color: green and text-align: center;

This is an ordinary paragraph. Notice that this text is blue. The default text color for a page is defined in the body selector. Nature is everything which surrounds us like water, air, land, sky, fire, river, forests, animals, birds, plants, sun, moon, stars, sea, lake, rain, thunder, storm, etc. Nature is very colourful and has both living and non-living things in its lap.

You can add paragraph tag and add paragraph tag
color:white. background-color:orange and border:3px
solid green.

~~Nature refers to the physical world and all forms of life species on earth in general~~

You can add h3 heading and add h3
text-align: right and text-decoration-
line: line-through.

The beauty of nature lies in its freshness, openness, slow breeze and the warm sun – relief for our brains. Nature is made of everything we see around us the trees, flowers, plants, animals, sky, mountains, forests and more. We find many colors in nature which make the Earth beautiful.

You can add h2 heading and add h2
text text-align: left, color:black and
background-color:yellow.
