Self-Made Assignment - Control Flow Statement and Loops

Jump Statement in C Plus Plus

1. Create a program that:

- Iterates through numbers from 1 to 20 using a for loop.
- Skips printing the numbers divisible by 4 using the continue statement.
- Stops the loop entirely when the number is greater than 15 using the break statement.

2. Print the remaining numbers after applying the conditions above.

Example Output

1 2 3 5 6 7 9 10 11 13 14 15
