Self-Made Assignment - Control Flow Statement and Loops

Jump Statement in C Plus Plus

Write a C++ program that:

1. Uses a while loop to iterate numbers from 10 to 1 in reverse.
2. Stops the loop if the current number is 4 using the break statement.
3. Skips printing the number 7 using the continue statement.

Output Example:

10 9 8 6 5

 CBSE

 ICSE

 NTSE

 Banking & Insurance

 Central Govt. Service

 State Govt. Services

 LAW Entrance

 MBA Entrance

 Railways & Metro Services
