Self-Made Assignment - Java Script

Switch Statement in Javascript

1. Write a JavaScript program that uses a `switch` statement to evaluate a student's grade. If the grade is 'A', print "Excellent", for 'B' print "Good", for 'C' print "Average", and for 'D' print "Below Average". For any other grade, print "Invalid grade".

2. Write a JavaScript program that uses a `switch` statement to print a message depending on the day of the week. If the day is Monday, it should display "Start of the week!", Tuesday, it should display "Just another day." for Wednesday it should display "Midweek!", Thursday, it should display "Just another day (Thursday)." and for Friday, it should display "Weekend is near!", Saturday, it should display "Just another day (Saturday)." If the day is any other day, print "Just another day".
