Self-Made Assignment - C Language

First C Program

Question:

Write a C program that:

1. Prints a welcome message to the user.
2. Displays your name, Roll number, and course name.
3. The output must be exactly the same as the one provided.

Instructions:

- Use `#include <stdio.h>`.
- The output should be displayed using the `printf()` function.
- Add comments to explain your code.
- Save your file with a `.c` extension (e.g., `first_program.c`).

Output:

```
Welcome to the world of C programming!  
  
Name: Ananya Sharma  
Registration Number: 2310456  
Course: Introduction to Programming in C
```
