## Self-Made Assignment - C Language

### Introduction and Declaration of Functions in C Language

#### Task: Find the Maximum of Two Numbers Using a Function

#### Objective:

Write a C program that uses a function to find and return the maximum of two numbers.

#### Instructions:

Your program should:

1. Ask the user to enter two numbers.
2. Create a function named `findMax` that takes two integers as parameters and returns the larger number.
3. In `main()`, call the function and display the result.

#### Resultant Output:

##### Output

```
Enter first number: 20  
Enter second number: 35  
Maximum is: 35
```
