Self-Made Assignment - MS Word

Comment and Word Count In MS Word

Write the given paragraph with the title "A Day at the Science Fair". Add comments given below to the selected part.

1. Last month, our school organized a science fair that turned out to be one of the most exciting events of the year. My team and I worked for two weeks to build a model of a working wind turbine.
2. We displayed it proudly on our table with charts and diagrams showing how wind energy is converted into electricity. **Visitors seemed impressed,** especially when the fan we connected to the turbine spun using the generated energy.
3. One of the judges even asked if we had considered entering a district-level competition. It was inspiring to see so many creative projects, from solar-powered ovens to water filtration systems. The fair taught me the value of teamwork, preparation, and presenting ideas with confidence.

- ❖ Comment: You Have To Add This Comment To The 1<sup>st</sup> Paragraph (Could You Explain How The Turbine Worked Or What Materials You Used.)
- ❖ Comment: Now You Have To Add This Comment To The Word Highlighted In Yellow In 2<sup>nd</sup> Paragraph(Try Describing A Specific Reaction From A Visitor—What Did They Say Or Do.)
- ❖ Now You Have To Select The Entire Paragraph Count The Words And Character With Spacing And Write The Word Count At The End .
