1. Document Setup

- Open CorelDRAW.
- Go to **File > New**.
- **Name:** Golden Swan Logo
- **Units:** Pixels
- **Width:** 1000 px
- **Height:** 1000 px
- **Resolution:** 300 dpi
- **Color mode:** RGB
- Click OK.

2. Draw the Swan Base (Central Body)

- Select the **Bezier Tool** (or Pen tool).
- Draw the central S-shaped swan neck and body:
- Start with a curve from bottom-center to top.
- Use symmetrical curves to mimic the "S" shape.
- Adjust curves using **Shape Tool (F10)** to smooth them.
- **Tip:** Draw one half and mirror it using **Ctrl+C → Ctrl+V → Mirror** horizontally.

3. Create the Wings

- Use the **Bezier Tool** again or **Ellipse + Shape Tool** to create the feathered wing shapes:
- Design one wing with layered feather-like shapes (you can use multiple curves or tapered shapes).
- Make sure they flow outwards and upwards like in the image.
- Group the wing elements (Ctrl+G).
- Duplicate and mirror the wing to the other side.
- Each wing can be around **400 px wide x 500 px tall**.
- The body should be around **100 px wide x 500 px tall**.

4. Combine the Shapes

- Arrange the wings and body to look unified.
- Use **Object > Align and Distribute** to center align.

5. Add the Text "GOLDEN SWAN"

- Select the **Text Tool (F8)**.
- Type **GOLDEN SWAN** below the swan.
- Use a **Serif font** similar to Times New Roman or Trajan Pro.
- Set the font size around **50-80 px** depending on spacing.
- Place the text centrally below the swan, leaving about **40-60 px** spacing.

6. Apply Black Fill (Solid Color)

- Select all shapes.
- Use the **Fill Tool** to apply **solid black (RGB: 0,0,0)**.
- Remove any outlines using the **Outline tool > No Outline**.

7. Export the Logo

- Go to **File > Export**.
- Choose **PNG** or **JPEG**.
- Set:
- **Size:** 1000 px wide
- **Transparent background** (for PNG)
- **Save**.
