Self-Made Assignment - CorelDRAW

Setting Up Page Layout and Orientation

Document Size

- You can set a standard size for posters, such as:
- Landscape Mode: 1920 × 1080 pixels

1. Open CorelDRAW

- Create a new document.
- Set the **size**: 1920px (width) × 1080px (height)
- Set **Orientation**: Landscape
- Color Mode: RGB (for digital use)

2. Background Design

- Use the **Ellipse Tool (F7)** to create large yellow semi-circles.
- Arrange them at the corners as in the design.
- Fill the background with a **dark blue/navy** rectangle using the **Rectangle Tool (F6)**.

Self-Made Assignment - CorelDRAW

Navigating the Workspace and Viewing Designs

3. Top Section - Logo & Title

- Create the GRAPHICSWEB logo using basic shapes (rectangle, circle, and lines) and text tool (F8).
- Use white and yellow for the logo and label.
- For the title:
- Use 3 Text Boxes:
- "PROFESSIONAL" in green (small size)
- "GRAPHIC" in white bold
- "DESIGNER" in yellow bold
- Align these centrally using alignment tools (Ctrl+Shift+A).

4. Slogan Bar

- Add a small rectangle below the title.
- Insert text: "An attractive graphic design Improve View Quality and Effectiveness"
- Use a green background and light text.

5. Right Section - Business Banner

- Add a circle image holder using the Ellipse Tool.
- Use the PowerClip feature to place an image inside the circle:
- Right-click image → PowerClip Inside → click the circle
- Add the Iberia logo on top-left of the circle (optional placeholder logo).
- Create a yellow rectangle for the "Business Banner Design" text.
- Place the "GRAPHICSWEB" text bar below in a blue rectangle.

6. Contact Information

- Use a yellow rectangle at the bottom-left.
- Place an email icon (you can use a symbol font or import an SVG).
- Add the email: grvsdgd21@gmail.com

7. Fonts

- Headings: Impact, Montserrat Bold, or Bebas Neue
- Body: Arial, Roboto, or Calibri

8. Exporting

- File- Export-Choose PNG/JPEG
