**Self-Made Assignment - SQL**

**DCL Command in SQL**

- Give the user rahul permission to view and add data in the students table using a GRANT command.  
Then, remove his permission to add data using a REVOKE command.
- Write the GRANT command to give rahul the SELECT and INSERT privileges on the students table.
- Write the REVOKE command to remove only the INSERT privilege from rahul.
- Make sure your commands include the correct syntax for DCL.

ID	student_id	Name	Age	City	Class
1	1	Aarav Sharma	14	Delhi	9A
2	2	Diya Patel	13	Ahmedabad	8B
