<h1>Global Warming</h1> <p>Causes, Effects, and How We Can Help</p>	<p>Slide 1:</p> <ul style="list-style-type: none"> • Title Slide • Write on Title (Global warming) and subtitle prepared by(Causes, Effects, and How we can Help)
<h2>What is Global Warming?</h2> <p>Global warming means that the Earth's temperature is slowly increasing. This happens because people burn coal, oil, and gas, which release gases into the air. o These gases trap heat from the sun, making the Earth warmer.</p> 	<p>Slide 2:</p> <ul style="list-style-type: none"> • Title and Content Slide • Insert a picture of "Global Warming"

Self-Made Assignment - MS Power Point

Using Clipart in Power Point

Causes of Global Warming

- Burning Fossil Fuels: Cars, factories, and power plants burn coal, oil, and gas, which releases harmful gases into the air.
- Cutting Down Trees: Trees clean the air, but cutting them down means more pollution stays in the air.
- Farming: Some farming activities, like raising cows, release gases that add to global warming.

Slide 3:

- Title and Content Slide
- Insert a Picture of "Global Warming"

Slide 4:

- Blank Slide
- Insert 6 Rectangle shapes
- Insert Tornado, Forest Fires, Landslide, DE glaciation, Eruption, Tsunami picture inside the shapes
- Use Reroute connectors
