

Ques 1 AI, Human

Ques 2 application of computer :-

1. Banking: Computer are used in bank for electronic money transfer, making deposits, vouchers, bank cheques etc.
2. Education: Computer is very effective tool which can be used for teaching and learning result processing, student data processing, notes preparation, etc.
3. Office: Computer are used for preparing reports, updating reports, deleting reports, etc in office.

Ques 3 Laptop and general-purpose CPU's are not considered to be embedded computers

for several reasons. Firstly, the word 'embedded' implies that the computer must be contained in a larger mechanical or electronic system. The word 'computer' is typically through of as a computer that stands on its own. Second, while an embedded computer is designed to perform a specific task, a laptop is capable of running and downloading various programs, software and computers simultaneously.

Data: Unprocessed news facts and figures like numbers, text or piece of paper, are known as data.
