Q. Define following Computer terms:-

Hardware :-

Software :-

Data :-

Program :-

* **HARDWARE** :- Hardware refers to the machinery & equipments of the Computer System. It refers to all the physical devices of the computer system.
ex :- monitor, keyboard etc.

* **Software** :- Software is a collection of instruction data, or Computer programs that are used to run machines & carry out particular items.

Ex - MS-Word, MS-Excel.

* **Data** - In Computing, data is information that has been translated into a form that is efficient for movement or processing.

Ans
Q.3

Artificial intelligence is an area of Computer Science that emphasises the creation of intelligent machines that work & react like humans.

Ans 3

Laptop & general purpose CPU's are not considered to be embedded computers for several reasons. First the word "embedded" implies that the computer must be contained in a larger mechanical or electrical system.

Ans 2.
